TRACK OF
S U R G I C A L

Track of Surgical is the specialist manufacturer of Dental instruments. Since 1964, for over 48 years track of surgical has been sharpening its awareness for change, anticipates New needs and constantly improving its spectrum that's why the track of Surgical is the acknowledge world leader. we are situated in the beautiful city of Sialkot

in the north of Pakistan, which is a gateway to the visitors paradise Kashmir. We are involved in the manufacturing of top quality gyne instruments and are exporting to our prestigious customers throughout the world since many years. we manufacture instruments in a highly quality control environment and use CNC machines under the supervision of highly qualified professionals.

we als have fully equipped quality research lab to control the quality of instruments At each and every step we are using top quality medical grade stainless steel to produces our high quality products. The Track of surgical are in daily use all over the world. Trusted by countless surgeons because of their high quality of workmanship and correct patterns for all disciplines of surgery. the knowledge and expertise are based of 38 years over many years and guarantee that high standards are reliably maintained

Track of surgical will meet your challenge with superior services, outstanding access to specialty products manufacturers and aggressive pricing. our company helps you to realize top value for your investments in specialty or instruments. we guarantee you, ill benefit from our level of quality and ease of operation. stringent products tests provide for flawless quality assurance. Track of surgical has had its own laboratory for many years. designed for monitoring product quality and products process itself. the required analysis examinations are carried out and recorded

here on account of these standard we received the certification or ISO 9001 : 2008 CE. cGMP. Note all the size of the instrument is according to catalogue of aesculap. Martin Sklar downs, miltex, etc

We can supply the instruments exactly according to the above catalogues. Quality assurance dose not just mean testing, as far as we concerned, but also the organization of the production Process with. the customers in mind. the costumers in strictly following the policy of not employing child labor in keeping with moral and international laws most importantly we know how important

Your job is and our goal is to help make you more effective efficient. A buyer empowered by knowledge is buyer we want to know. we eager to serve your esteemed and prestigious and excellent services, Which are also the hallmark of our organization. we ar manufacturing instruments as per specification and drawing provided by the buyers.
